Subject: Microsoft Settlement

To whom it may concern;

I feel that the proposed Microsoft settlement is a BAD idea. In the long run, Microsoft's monopolistic predominance of the American Tech market will only hurt American tech companies in the future. These are companies which try to innovate, and forward technology. Microsoft only tries its best to stagnate this innovation by snuffing out their competition.

Please reject the Microsoft Settlement and save America's predominance in the tech sector.

Sincerely,

Jonas Roel
Tampa, Florida, USA
